

The President called the meeting to order.

The Secretary did not attend the meeting, so The Treasurer recorded the minutes.

There was no old business.

New business:

Chuck made note of the installation of the solar lights at the entrance sign. A comment was made regarding the placement of the solar panels, that one panel was slightly blocking the other panel. Chuck said he would address this.

The Board was notified via email that a homeowner has removed tree(s) that might have been planted in a common/easement area. As far as the Board is aware of, there are no original trees planted by Kennedy that are located in an easement or common area. Alicia has replied directly to this email.

Treasurer Report:

We currently have \$15,668.58 in the money market account, and \$4,326.06 in the checking account.

There were no other questions.

Meeting was adjourned.
